

## TEAMWORK

Written by Elmarie Möller

"The difference between success and failure is...a great team."

*"Let's build a company of friends, ones that will make mistakes sometimes, others that will sustain a safe environment, keeping the focus on breeding friendships. Allow civil and adulthood to be the norm always and constantly striving to minimize stirring/backstabbing."*

Teamwork is a sense of Unity.

Teamwork is a sense of Enthusiasm.

Common interests and responsibilities among a group of persons closely associated ... with a task, cause, or an enterprise, etc.

Teamwork is the **GLUE** that keeps a team together, a bond that promotes strength, reliability, and support.

Teamwork is the **OIL** that makes the team work with flexibility.

It enables a smoother movement towards the focus and the target and help the team to overcome obstacles.

*Benefits of Teamwork:*

- Encouraging and Improving communication
- Unlocking Creativity
- Effective Collaboration among all Team Members
- Dealing with change in a positive way (problems/ conflict)
- Respect for all Team Members
- Shared missions/goals/success

**T . E . A . M – To Engage All Members**

The effect of **no** Team Work:

- Team Members walking on egg shells
- Saying what is wanted/expected, not what is needed ... the truth

**Fear** ←————→ **Confusion**  
Making **forgiveness** impossible

*Not enough  
Victim*

*Vulnerable  
Defense*

- Opportunity for Trust becomes IMPOSSIBLE
- Opportunity for Respect becomes IMPOSSIBLE

**If you want to go fast ... go alone ...**

**If you want to go far ... go together**
